

# AERO Paint Restorer

## Application:

The surfaces has to be thoroughly cleaned before use.

Do not use under direct heat or on hot paint surfaces.

Shake well before use. Apply generously to a soft rag and apply evenly with circular movements under light pressure.

Use only on partial surfaces.

Allow to affect and dry. After that it can simply be wiped off with a soft and clean rag, e.g. **AERO Cockpit Cleaning Rag**.

Suitable for manual and mechanical processing.
