

AERO RainAway

Application:

Suitable for all windshields used in general aviation.

Clean windshield thoroughly, e.g. with **AERO Windshield Cleaner** first.

Apply the product with a clean, soft rag, e.g. **AERO Cockpit Cleaning Rag**, on the dry and clean windshield a clean, while using light pressure (NO circular motion).

After about 5-10 minutes, when seeing a slightly white residue, polish with a clean, soft rag, e.g. **AERO Cockpit Cleaning Rag** (No circular motion), until the windshield is clear.

Application at least once a month is recommended. More uses might be necessary depending on rain/weather conditions.
